READING & VOCABULARY (20 Marks)

Read the passage carefully and answer the questions that follow.

On 25 October 1881, a baby boy was born in Malaga, Spain. This baby grew up to be one of the twentieth century’s greatest painters - PABLO PICASSO. Picasso showed his genius from a very young age. He was the only son in the family, so he was thoroughly spoiled. He hated school and often refused to go unless he was allowed to take one of his father’s pet pigeons with him. Apart from pigeons, his great love was art. When in 1891 his father got a job as an art teacher, Pablo went with him to work and watched him paint. Sometimes he was allowed to help. His genius as an artist was soon recognized by many people, but others were shocked by his strange and powerful paintings. He is probably best known for his Cubist pictures. His work changed ideas about art around the world and to millions of people modern art means the work of Picasso. At the age of 90, he was honored by an exhibition in the Louvre in Paris. He was the first living artist to be shown there. Picasso created over 6,000 paintings, drawings and sculptures. Today, a Picasso costs millions of pounds. Once, when the French Minister of Culture was visiting Picasso, the artist accidentally spilled some paint on the Minister’s trousers. Picasso apologized and wanted to pay for them to be cleaned, but the Minister said, “No! Please, Monsieur Picasso, just sign my trousers!” Picasso died at the age of 92. He suffered from heart failure during an attack of influenza in 1973.
