I – READING (8 Marks)

Read the following passage and answer the questions below:

A. A college is a wonderful place. It is like a town or a small city in several ways. One way is population. In general, the population of a town is less than 10,000 people. A city is more than 10,000 people. In the United States, many colleges and universities have several thousand students. For example, Pasadena City College, in California has almost 30,000 students. Miami-Bade College, in Florida has 174,000 students on 8 campuses! In other ways, too, a modern college is like a small city.

B. Like a city, many colleges have everything for student life. A dormitory is a room or a building where students live. This is also called an apartment building. There are places to eat: dining rooms, coffee shops, and snack bars. There is a student store, with food, clothes, and computers. There is a health center, with doctors and dentists. There is often a shuttle for students. (A shuttle is a bus. It takes students from one place on the campus to another.) Like any city, a college campus has entertainment. There is often a radio station or theatre. There is a sports center, where students exercise: they run, swim, or play games. They watch sports, too. There are student clubs, where students learn more about computers, poetry, or science, for example. There is student art gallery.

C. Of course, students go to college for education. But learning happens in many places, not only in classrooms. One important place is the learning resources center. This is like a library, but it also has computers and tutors. (A tutor is a teacher who helps one student with questions or problems.)

A. Circle the best title for the reading passage given above. 
   (1x½= ½mark)
   a. Art Gallery
   b. Health Center
   c. College Life
   d. Entertainment at College

B. What does the pronoun they (7th line of the 2nd paragraph) refer to? 
   (1x½=½ mark)
C. Answer the following questions: (2x1=2 marks)

1. According to Paragraph A, where is Miami-Dade College?

__________________________________________________________________________

2. According to Paragraph B, what do the students do in the sports center?

__________________________________________________________________________

D. Choose the correct answer. (2x½=1 mark)

1. A learning resources center is like a _________________.
   a. hospital    b. mall    c. library    d. cafeteria
